Blackwood's Edinburgh Magazine.

The above Periodicals are reprinted in New York, immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals—BLACKWOOD'S MAGAZINE being an exact fac-simile of the Edinburgh edition.

They embrace the views of the three great parties in England—Tory, Whig and Radical—"Blackwood" and the "London Quarterly" are Tory; the "Edinburgh Review" Whig; and the "Westminster Review" Radical. The "North British Review" is more of a religious character, having been originally edited by Dr. Chalmers, and now, since his death, being conducted by his son-in-law, Dr. Hanna, associated with Sir David Brewster. Its literary character is of the very highest order.

CLUBBING.

Four copies of any or all of the above works will be sent to one address on payment of the regular subscription for three—the fourth copy being gratis.

EARLY COPIES.

A late arrangement with the British publishers of Blackwood's Magazine secures to us early sheets of that work, by which we shall be able to place the entire number in the hands of subscribers before any portion of it can be reprinted in any of the American Journals. For this and other advantages secured to our subscribers, we pay so large a consideration that we may be compelled to raise the price of the Magazine. Therefore we repeat, "subscribe early while the price is low."

Whig and Courier.

John S. Sayward,—Editor.

FRIDAY, APRIL 7, 1848.

☞A correspondent in the last Democrat examines the recent proposition of Senator Moore for the remission of the duties imposed upon lumber imported from the Province of New Brunswick upon proof being furnished that the lumber was manufactured from logs cut in Maine. The proposition is pronounced one of vast mischief, and which if carried will result in the prostration and ruin of the lumber business on the Penobscot, as well as other lumber regions in the State.

The present duty of twenty per cent, is quite small enough, it is argued, for revenue, and the writer thinks that the little incidental protection it affords to the labor of Maine "ought not to be begrudged to her."

The writer says —"Under the guise of opening our ports to the lumber of American origin, it throws them wide open to all the lumber of the immense valley of the St. John It will bring immediate and direct ruin to thousands of our citizens, and will be felt indirectly but most disastrously, throughout the entire industrial organization of the State. Much of our machinery devoted to the manufacture of lumber will be thrown out of employment. All of it will be depreciated in value. Our freighting vessels will find their greatest and most profitable employment transferred to foreigners. Flourishing villages will decay and die out, the source of their prosperity dried up, their real estate sinking in value, and their former prosperity departed, leaving nothing behind but a wreck of blighted prospects and baffled hopes."

The lumber interest in this vicinity has been greatly stirred on account of the proposition which Mr Moore has brought forward in the U S Senate, and which, is believed here to have been done at the earnest suggestion of a few men whose interests are in this matter adverse to that of the public

We were somewhat surprised to find so strong an article in favor of protection to home industry in the columns of the Democrat, which generally opposes that side of the question, but it appearing there we hope may do good to its readers, even if it do not enlighten its editor upon a practical point in political economy

Telegraphic.

Mr C A Wakefield, the widely and favorably known lecturer on the subject of Magnetism and the electric telegraph, will lecture at Market Hall on this evening

Mr W has lectured before the Portland Lyceum, and large audiences in all the principal towns in Maine, and has received the favorable notice of the Press. He fully understands his subject, and he makes it perfectly plain to every listener.

☞Crescent Division of the Sons of Temperance celebrated their second anniversary last evening by a large social company and a fine collation. Addresses, music and songs gave great zest to the occasion, and prepared all minds for engaging with more devotedness in the good cause of temperance and prepared all hearts to acknowledge the vast strength there is in love and the social principle, for promoting a benevolent enterprise.

It is rare indeed, that any association sustains an occasion of more interest or more real enjoyment or satisfaction than this celebration, or one promotive of a better or a wider influence.

The fine company of Cadets were present and added much to the interest of the meeting.

The Ratification of the Treaty.

An intelligent gentleman, long resident in Mexico, writes as follows in regard to the probable action of the Mexican Congress on the Treaty.

Mexico, March 3, 848.

In relation to the ability of this government to unite a sufficient number of deputies to ratify the Treaty signed on the 2d ult I have my doubts, indeed, it appears impossible, though it may take place

When I wrote you last there were in Queretaro about forty members of congress Since that time they have been decreasing, and now I believe there are not thirty, so you see by it there is but little prospect of a ratification within the term agreed upon in the Treaty

☞We intended, several days since, to have said to our correspondent "Peace" that the only objection we have to publishing his communication is, the necessity which it would impose upon us of answering it. This would result in the discussion of the question, whether the organization of the municipal government should be upon a political party basis This is a foregone conclusion, so far as our columns are concerned, and any debate upon it would lag behind the decision of the question debated.

☞"One of the Boys" suggests, in a communication to us, that the example of the men in this city—the gentlemen loafers, as he styles them—has a greater influence over our city boys than all the moral teachings of home and the school room. If the boys generally would make this discovery, and would pursue a course which such knowledge suggests, they would soon occupy a noble position and exert a favorable influence.

The Bishops of the Methodist Episcopal Church have issued a circular, recommending, in view of the important matters to come before the General Conference of the Church, that the last Friday in April be observed throughout the churches as a day of humiliation and prayer, and that sermons be preached during the day.

Robbery.

The Book store of Mr Wm. F. Blaswood was entered on Wednesday night by a back window and seven dollars in money taken from the drawer and about seventy five dollars worth of his most valuable books stolen. The robbers have not yet been ferreted out.

☞ We received yesterday from Mr Brook [illegible] the German Gardener recently established in this city, a fine bunch of radishes and a head of lettuce.

☞The Rev. Mr. Ilsley, of Portsmouth, N. H. and formerly of Warren Me., has accepted the call of the Baptist Church and Society in East Thomaston to become their pastor.

HON. DANIEL WEBSTER'S SPEECH,

Continued.

For a few years I held a position in the Executive department of the government; I left the Department of State in 1843, in May. Within a month after another most worthy and respectable gentleman—who came to a very untimely end—had taken my place. I had occasion to know, not officially, but from circumstances, that the annexation of Texas to the United States was taken up by Mr. Tyler's administration as an administration measure, guarded, pressed, insisted on, and I believe that the honorable gentleman to whom I have referred, and for whose memory I entertain much respect—Mr. Upshur—had something like a passion for the accomplishment of this purpose And I am aware that the President of the United States, at that time suffered his ardent feelings not a little to control his more prudent judgment. At any rate, I saw in 1843 that annexation had become a purpose. I was not in Congress nor in public life, but seeing this state of things, I thought it my duty to admonish, as far as I could, the country of the existence of this purpose There are gentlemen—many of them at the North—others now in this capital, who know that in the summer of 1843 being fully persuaded that this purpose of annexing Texas had been taken up with zeal and determination by the Executive government of the United States, I thought it my duty, and asked their concurrence in an attempt to let this purpose be known to the country. I conferred with gentlemen of distinction and eminence. I proposed some means of exciting public attention to the question of annexation, before it should become a party question; for I had learned that when a matter becomes a party matter, it is in vain to argue against it or argue upon it. But the optimists, the quietists then, who said all things are well and let all things alone, discouraged, discountenanced, repressed any such effort They said the North would take care of itself, the country would take care of itself, that it would not sustain Tyler's project of annexation, when the time came, the power of the North, which was felt in the House of Representatives, would be sufficient to resist the measure. And I could now refer to paragraphs and articles in the most respectable journals at the North, in which the attempt was made to produce an impression that there was no danger that we should have an addition of new States; that we need not alarm ourselves about it I was not in Congress when the resolution providing for the annexation of Texas was passed. I only know that up to a very short period before the passage of that resolution, the general impression was in the country to which I belonged, that no such resolution could pass But I have found sir, in the course of thirty years experience, that whatever measures the Executive government embraces and pushes, is quite likely to succeed There is a given way some where If the Executive government acts with uniformity, steadiness, earnestness of purpose—sooner or later is quite apt enough, according to my construction of history, too apt to effect its purpose

Just before the commencement of the present administration, the resolutions for the annexation of Texas passed Congress - Texas complied with the provisions of those resolutions, and she was here, or the case was here on the 22d of December, 1845, for her final admission into the Union, as one of these States. I took occasion then to state that I hoped I had shown all proper regard for Texas, that I had been ever mainly opposed to annexation, that I should go over the whole matter again I should have nothing new to add, that I had acted all along under the unanimous declaration of all parties, that of the Legislature of Massachusetts, that I thought there must be some limit to the extent of our territories, and that I wished that this country should exhibit to the world the example of a powerful republic without the greediness and hunger of empire And I added that while I held with as much faithfulness as any citizen of the land to each original agreement and compromise of the constitution under which we live, I never could and never should bring myself to be in favor of the admission of any States into the Union, as slaveholding States, and I might have added any States at all Now as I have said, in this I acted under the resolutions of the State of Massachusetts, certainly concurrent with my own judgment, so often repeated and re-affirmed by the unanimous consent of all men of all parties—that I could not well go through the series of pointing out, not only the impolicy but the unconstitutionality of such annexation. A case presented is this: If a State proposes to come into the Union, and to come in as a Slave State, then there is an augmentation of the inequality in the representation of the people which already exists—an inequality already existing, with which I do not quarrel, and which I never will attempt to alter, but shall preserve as long as I have a vote to give, or any voice in that government; because it is a part of the original compact Let it stand But then there is another consideration of vastly more general importance even than that; more general, because it affects all the States, free and slaveholding, and it is that, if States formed out of territories thus thinly populated, come into the Union, they necessarily, inevitably break up the relation existing between the two branches of the government, and destroy its balance They break up the intended relation between the Senate and the House of Representatives

If you bring in new states, any State that comes in must have two Senators. She may come in with fifty or sixty thousand people or more. You may have from a particular State more Senators than you have Representatives Can any thing occur to disfigure and derange the form of government under which we live more signally than that? What would be a Senate bearing no proportion to the people, out of all relation to them, by the addition of new States, from some of them only one Representative perhaps, and two Senators The Senate added to, augmented by these new Senators coming from States where there are few people, becomes an odious oligarchy. It holds power without any adequate constituency. Sir, it is but "borough-mongering," upon a large scale Now I do not depend upon theory; I ask the Senate and the country to look at facts—to see where we were, when we made our departure three years ago, and where we now are; and I leave it to the imagination to conjecture where we shall be.

We admitted Texas—one State for the present—but, sir, if you refer to the resolutions providing for the annexation of Texas, you find a provision that it shall be in the power of Congress hereafter to make four new States out of Texan territory. Present and prospectively, five new States—ten Senators—may come into the Union out of Texas. Three years ago we did this, we now propose to make two States. Undoubtedly, if we take, as the President recommends—New Mexico and California—there must then be four new Senators. We shall then have provided, in these territories, part of the United States along our southern borders, for the creation of States enough to send fourteen Senators into this chamber. Now, what will be the relation between these Senators and the people they represent, in the States from which they come? I do not understand that there is any very accurate knowledge of Texas. It is generally supposed to contain a hundred and fifty thousand persons. I doubt whether it has over one hundred thousand.

Mr. Mangum—It contains one hundred and forty nine thousand.

Mr. Webster—My honorable friend on my left says, a hundred and forty-nine thousand. I put it down then one hundred and fifty thousand—Well, sir, Texas is not deduced probably, is to a country of dense population. We will suppose it to have near one hundred and fifty thousand population by best accounts—and I have given [illegible] way to San Francisco, where there is some good land, and we may suppose they will shortly amount to sixty or seventy thousand. We will put them down at 70,000. Then the whole territory in this quarter, which is as large as any man puts it at, will contain two hundred and ninety thousand persons, and they will send us whenever we ask for them, fourteen Senators. A population less than that of the State of Vermont, and not the eighth part of that of New York Fourteen Senators and no more people than Vermont! and no more people than New Hampshire! and not so many people as the good State of New Jersey! But then sir, Texas claims to the line of the Rio Grande, and if it be her true line, why then of course she absorbs a considerable part, nay, the greater part of what is now called New Mexico I do not argue the question of the true southern or western line of Texas. I only say that it is apparent to every body who will look at the map, and learn any thing of the matter, that New Mexico cannot be divided by this River, the Rio Grande, which is a shallow, fordable, insignificant stream, creeping along through a narrow valley, at the base of enormous mountains. New Mexico must remain together; it must be a State with its seventy thousand people, and so it will be and so will be California

But then, sir, suppose Texas to remain a unit and but one State for the present, still we have three States, Texas, New Mexico, and California. We have six senators then for less than three hundred thousand people. We have as many senators for three hundred thousand people in that region, as we have for New York, Pennsylvania, and Ohio, with four or five millions of people; and this is what we call an equal representation! Is not this enormous? Have gentlemen considered this? Have they looked at it? Are they willing to look at it in the face and then say they embrace it? I trust in God the people will look at it and consider it. And now let me add, that this disproportion can never be diminished, it must remain forever. How are you going to diminish it? Why, here is Texas, with a hundred and forty-nine thousand people, with one State. Suppose that population should flow into Texas, where would it go? Not to any dense point, but to be spread over all that region in places remote from the gulf, in places remote from what is now the capital of Texas, and therefore as soon as there are in other portions of Texas people enough within our common construction of the constitution and our practice in respect to the admission of States my honorable friend from Texas will have a new State, and I have no doubt he has chalked it out already Well, then, as to New Mexico there can be no more people there The man is ignorant, stupid, who has looked at the map of New Mexico and read the accounts of it, who supposes there can be any more people there than there is now; some sixty or seventy thousand It is an old settled country; the people living along in the bottom of this valley on the two sides of a little stream, a garter of land only on one side and the other, filled by coarse landholders and miserable peons It can sustain, not only under this cultivation, but under any cultivation that our American race should ever submit it to, no more people than there are there now There will then be two senators for sixty thousand inhabitants in New Mexico, to the end of our lives and to the end of the lives of our children.

Well, now, how is it with California? We propose to take California from the forty-second degree North latitude down to the thirty second degree,—we propose to take ten degrees of latitude along the coast of the Pacific. All along that great distance there are settlements, and villages, and forts; but it is all wilderness and barrenness, and Indian country. But if about San Francisco, and perhaps down to Monterey or a little to the North there shall be enough to make up one State, why the people five hundred miles off, in time to come, will have another State, and then this disproportion of Senators to the people will go on, and must go on, and we cannot prevent it. I say, sir, that according to my conscientious convictions, we are now fixing upon the constitution of the United States and upon our form of government a monstrosity—a disfiguration—an enormity Sir, I hardly dare trust myself. I do not know that I may not be under some delusion. I do not know that my head is not turned It may be that it is the weakness of mine eyes that forms this monstrous apparition. But if I may trust myself—if I may persuade myself that I am in my right mind, then it does appear to me that we, in this Senate, have been acting, and are acting and are likely to be acting hereafter, a part which will certainly form a remarkable epoch in the history of our government. I hold it to be enormous—flagrant—and an outrage upon all the principles of a popular representative government and upon the elementary provisions of the constitution under which we live, and which we have sworn to support. But then, sir, what frees the case from this enormity? Why, it is that we stipulate only that these new states shall be brought in at a suitable time. Now, what is to constitute the suitable time? Whom is to judge of it? I tell you, sir that the suitable time will come whenever the preponderance of party power here makes it necessary to bring in new States—The time will depend on the state of our politics here, and not upon the condition of these States elsewhere. Be assured, sir, there will be a suitable time whenever strength, or party power, or votes, are wanting in this Senate.—We have some little experience of this. Texas came in in suitable time, very suitable! Texas was finally admitted in December, 1846 My friend near me here, (Mr Rusk,) for whom I have great regard, whose acquaintance I have cultivated with much pleasure, took his seat here, with his colleague, in March 1846 In July, 1846, these two Texan votes turned the balance in the Senate and overthrew the tariff of 1842, in my judgment the best system of revenue that was ever established in this country Gentlemen of different opinions think otherwise. They think it was fortunate. They think the Texan votes came in in suitable time; and they will take care that New Mexican votes shall come in in suitable time also. I understand it perfectly well. It is a difference of opinion between myself and them. To their policy, to their object, to their purposes, the time was suitable, and the act was efficient and decisive.

Sir, in 1850, perhaps, similar questions may be agitated here—they are not likely to be before—but agitated they will be then, unless some change in the course of the administration of the government takes place; and, according to my apprehension, looking to general results as flowing from our established system of commerce and revenue, in 1850, two years from this time, we may probably be engaged in a new revision of our system in the work of establishing, if we can, a tariff of specific duties in the work of protection, if we can, the domestic industry of this country, and in the work of providing, to some extent, if we can, the revenue [illegible] of importation. Suppose this to be the case, and suppose that our opponents require additional strength, then will be exactly the time for two Senators from New Mexico to make their appearance here.

VIVE LE TRICOLOR!

BY F. A. DURIVAGE.

Like the glory of day dawning
O'er the [illegible] night of war,
Yes, with [illegible] this morning
Beams the flame of freedom's star.
[illegible]
The red, white and blue!

If a moment lost in battle—
When valor strove in vain—
O'er the drooping Bourbon lilies
It meets to be won again—
The gains two hundred eagle
May vainly spread his wings.
When freedom's soaring traveler
Its shadow o'er him flings.
Then onward! sons of freedom!
To the cause of man be true—
Vive, vive le tricolor!
The red, white and blue!

The land of Sobieski
Shall break the Russian chain,—
And bright Italia stand erect
And free and fair again.
From the Baltic to the Bosphorus,
From Biscay to the Don
The fight of Freedom shall be fought,
The fight of Freedom won.
O! 'sacred bayonets of France!'
The issue is with you—
Then vive! vive le tricolor!
The red, white and blue!

Important to Owners of Horses!
Dillow's Celebrated
HEAVE CURE!!!

Which has been used with such astonishing effect in France and England for the last twenty years, is now and has been for the last two years performing the most wonderful cures ever on record in this Country. More than

900 cases of Heaves,
2500 cases of Chronic Coughs and Colds;
1000 cases of Catarrh and Nasal Gleet;
1500 cases of Affection of Bronchial Tubes and Glands;
500 cases of Thick and Broken Wind; and
500 cases of Inflammation of the lungs,

Have been cured by this extraordinary remedy, since its introduction to the United States. The following is one of the hundreds of certificates in our possession, proving its Universal efficacy.

New Scotland, Albany Co., N. Y., February 17th, 1848.

Messrs Ford & Grant: Gentlemen—I herewith transmit to you, my certificate, for the benefit of those who may have horses similarly affected.

I, hereby certify, that one of my best horses in the winter of 1846-7, became afflicted with the heaves in the most aggravated form—which I allowed to run between three and four months, without doing anything for him. Having heard of the unparalleled popularity of "Dillow's Heave Cure," I purchased three papers of it, gave it to him, and it entirely removed the disease. From that time to the present he has been in a perfectly sound condition.

JAMES M. WILLIAMS.

UNIVERSAL CONDITION MEDICINE.
Read the testimony of an eminent Boston Farrier.
Boston, January 8th 1848.

Messrs Ford & Grant: Gentlemen—At the request of your Agents here, I send you my opinion of your celebrated Dillow's Heave Cure. As an *Universal Condition Medicine*, as well as a sure cure for the Heaves, and all diseases arising from an affection of the bronchial tubes, parotid and submaxillary glands and the lungs, and also from its general and alterative properties I recommend it to be the best medicine extant, for cases of Fevers, Glanders, Chest-Founder, Dropsy of the Skin and Chest, Fever, Pleurisy, Jaundice, Hide Bound, Inflammation of the Kidneys and Mange. I conceive it to be a vegetable compound which operates upon the animal system in the same manner that Yellow Dock and Sarsaparilla operates upon the human system. I would call the attention of the horse-owning public to the fact that nine-tenths of the above Diseases are contracted through neglect during the Moulting Season, at time of changing the hair, which takes place during the most inclement seasons in the whole year; at which time, if the horse be exposed and neglected, the pores of the skin close up and the circulation of the fluids ceases. If left in that condition, Disease in some form, must ensue. It is at this time that I consider your *Invaluable Powder* indispensable, as it operates upon the pores and Fluids of the Skin, and causes the old hair to fall off in due time, making way for the new and imparts to it a fine and glossy appearance.

THOMAS JONES, Farrier, No. 16 Ash street.

CAUTION.—The astonishing success of Dillow's Heave Cure for the last two years, in the United States, has induced several persons to imitate and counterfeit it, and they even go so far as to caution the public against it, and endeavor themselves by [illegible] the only genuine article [illegible] is the only article of the kind ever introduced in the United States, and we hereby offer the sum of One Thousand Dollars to any person, to [illegible] [illegible] [illegible].

The Great Remedy for Gonorrhœa

GLEET, Stricture, and all analogous complaints, is Dr. DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known, having practiced in the principal cities in the Union during the last 40 years. His only reason for introducing the Paste in this public manner, is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr. D. most solemnly affirms, that during his practice of forty years, this Paste has never, in one single instance, failed of effecting a cure in a few days, without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years, but after taking the Paste for a few days, the angry symptoms disappeared, and the patients were discharged, entirely cured.

If the unfortunate instead of drugging themselves with quack nostrums, would purchase only one box of the Arabian Paste, we should not see so many emancipated bodies and sallow countenances as we do at the present time.

☞In case this Paste should fail to effect a cure in the shortest possible time, two times the price paid for it will be given the purchasers on returning the empty boxes.

For sale only by the original inventor and sole proprietor, Dr PETER G. DOUGLASS, at his Office, No. 55 Union street, Boston, at $5 per box where he can be confidently consulted on every disease incident to the human frame, and the patient rely upon the most beneficial course of treatment that can possibly be adopted.

Medicines sent to any part of the country.

Permanent Cure of Dyspepsia and habitual Costiveness.

To Dr. Ralph.

DEAR SIR—I have, myself, almost no occasion for your inestimable Pills. I have used them say six years, as occasion dictated; and I have reason to suppose they have wrought a thorough and permanent change in respect to the functions of the stomach. From habitual costiveness, and the voiding of nauseous and slimy stools, I am completely relieved. The multifarious symptoms of Dyspepsia, with which I was once too well acquainted, have so entirely passed away, that I hardly know what they were. Any use you can make of this, or a more full development of my case, is at your service.

Except in an obstetric case, your book (Family Physician) and Pills have been the only physician in my house for six years.

There are many of my friends around, and more and more, who call for your Pills as a family medicine, and for chronic cases. Yours truly,
Horatio Waldo.

WERE RETAILED in Boston, by Gardner Chilson, in the short space of six months, and a large number have been sold by myself in this city. This Stove is not equalled by any other stove in the United States, and the unparalleled sale of this stove fully bespeaks its unparalleled merits.

HOUSE-KEEPERS should be sure and examine this superior Stove, which has won the admiration of several thousand house keepers the past season. It has more real and useful improvements than all others combined. The fire brick Oven top has proved to be of great value in absorbing the heat and causing bread to rise and bake light (equal to the brick oven.) The brick is found to be more durable than the iron top. It also equalizes the heat around the oven, and a much more even bake is produced in this stove than any other stove known. It has a most perfect arrangement for roasting in front. The Summer arrangement for broiling, boiling, toasting, &c., is complete. The grate cleans itself, discharging the ashes into the ash-pit. The flues are large, and so arranged as not to fill up with ashes. It is surprising to see how small an amount of fuel it requires to perform so great a variety of cooking. Its fine, neat appearance, substantial construction, and general good qualities, have set it forth to be THE STOVE FOR THE PEOPLE!

Graefenberg Company's Office,

50 Broadway, New York.......January 1st, 1848

THE very great increase of the Graefenberg Company's Business in New England, has rendered it necessary to reorganize the General Agency there. This is therefore to certify, that the New England Branch of the Graefenberg Company is now established at No. 104 Washington st., Boston, and that Mr. Edwin C. Barnes is duly appointed Secretary of said Branch; and that he is authorized to establish Local Depots, and to grant rights to vend the company's medicines. Every Agent must have a certificate with the seal of the Company thereunto signed by its Secretary, and countersigned by the aforesaid Branch Secretary. Immediate application should be made either personally or by letter. As there will ordinarily be but one Depot in a town or village, the Agency will be very valuable.

The leading article to which public attention is invited is the

The following complaints yield with certainty to their power: Asthma, Bilious Complaints, Colds, Chills, Costiveness, Dyspepsia, Erysipelas, Imperfect Digestion, Flour Albus, Green Sickness, Heart-burn, Headache, Jaundice, Liver Complaints, Rheumatism, and various diseases of the Stomach. In all URINARY COMPLAINTS the most implicit reliance may be placed upon them. Price 25 cents a box.

The names of the other Medicines are as follows:

THE CHILDREN'S PANACEA

For summer complaints, dysentery, and all other affections of the stomach and bowels, it is infallible. Price 50 cents a bottle.

THE GRAEFENBERG SARSAPARILLA COMPOUND.

Warranted to make two quarts superior to any in the world. Price one dollar a bottle.

THE GREEN MOUNTAIN VEGETABLE OINTMENT.

Wherever inflammation exists, this Ointment is a positive and speedy cure. Price 25 and 50 cents a box.

THE GRAEFENBERG EYE LOTION

For disorders of the Eye this Lotion has no equal. For violent inflammation, weakness, or foreign substances in the eyes it is an unfailing remedy. Price 25 cents a bottle, with full directions.

The GRAEFENBERG HEALTH BITTERS

Sovereign to build up the enervated system, to restore the appetite and clear the skin. Price 25 cents a package.

THE CONSUMPTIVE'S BALM.

This most extraordinary article is infallible, positively, in Consumption, Bronchitis and Bleeding of the Lungs. It is only sent as ordered, at $3 the quart. Consumptives may be sure of finding in this article that which will not disappoint their hopes.

The Graefenberg Gazette published by the Company for gratuitous distribution, may be had on application to any one of their numerous Agents.

DR. CUMMINGS'S

Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine. With these, other vegetable ones are combined, designed to render them more active, and consequently more certainly effective.

The Dock or rather a species of it, now ranks as a medicinal plant, second to no one of the vegetable kingdom. With the aid of a distinguished chemist, whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the virtues of the root for any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them, which has resulted in the production of the compound. In this the ingredients are found to act in harmony, and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract must to be relied on, and least liable to decomposition, is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time. This not usually done. None is permitted to be used in the compound that has not been obtained by this process, and that has been less than a year in preparation.

The Compound is recommended for Scrofula, Erysipelas, Ulcerous affections, Eruptions, and Mercurial diseases. Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposure to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution, among which are Neuralgia, Piles, Affections of the Liver, Bilious Complaints, and Dyspepsia or Indigestion.

In diseases of a warm climate, with which the proprietor became familiar in his practice in Havana, some years since, the compound will prove particularly efficacious, both as a remedy and a preventive.

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general to whom he is known.

Prepared only by Dr. Stephen Cummings, and sold at wholesale and retail by Joshua Hargrave & Co. No. 113 Middle street, and Edward Mason, No. 153 Middle street—only agents for Portland.

Sold in Bangor by G. W. LADD and JOSEPH S. INGRAHAM.

DR. UPHAM'S

Vegetable Internal Remedy

FOR THE PILES!

☞ A Cure for Life Secured!

For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys, and Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Blood, Weakness and Inflammation of the Bowels, and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY, invented by Dr. A. Upham, a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark this: it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles, either bleeding or blind, internal or external, and probably the only thing that will. There is no mistake about it. It is a positive cure—speedy and permanent. It is also a convenient medicine to take, and improves the general health in a remarkable manner.

Each box contains twelve doses, at 8 1/3 cts. per dose, It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger. All external applications are in the highest degree disagreeable, inconvenient and offensive; and from the very nature of the disease temporary in their effects. This Medicine attacks the disease at its source, and REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine for superior to all others, in all diseases of an inflammatory character, to which, in inflammation of blood in any vital or organ in inflammation and congestion of the Liver and Spleen, inflammation, soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, in inflammatory and mercurial Rheumatism, it is the Best Medicine ever discovered.

IMPURITIES OF THE BLOOD.

For all impurities of the blood, arising from the imprudent use of Mercury, or other causes; for all diseases of the Skin, and Scrofulous Affections; in all cases where the blood is powerfully determined to the head, producing dizziness and distress, DR. UPHAM'S ELECTUARY is entirely unrivalled.

TO MARRIED LADIES.

Married Ladies are almost invariably subject to that painful and injurious disease, the PILES, with consequent inflammation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head, &c.— The Electuary is perfectly safe for Pregnant Ladies, and the most gentle Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, WITHOUT PAIN or IRRITATION, but will ensure an easy time, a safe delivery, and a sound constitution to the offspring.

CURE FOR LIFE GUARANTIED.

The Electuary contains NO MINERAL Medicine; no Aloes, Colocynth, Gamboge, or other powerful and irritating purgatives. No fear of taking cold while under its influence, no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTIED.

Pamphlets giving valuable information respecting this Medicine, may be had of Agents, gratis.

Dr. Townsend's

SARSAPARILLA,

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This extract is put up in quart bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates diseases it invigorates the body. It is one of the very best Fall and Winter medicines ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the past two years, more than 35,000 cures of severe cases of disease, at least 20,000 of these were considered incurable.

More than 3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy,
7000 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Diseases of the Kidneys and Dropsy,
3000 cases of Consumption,

and thousands of cases of diseases of the blood, viz:—Ulcers, erysipelas, saltrheum, pimples on the face, &c., &c., together with numerous cases of sick headache, pain in the side and chest, spinal affections, &c. &c.

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq., one of the most respectable druggists in Newark, N. J., informs us that he can refer to more than 150 cases in that place alone. There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character. It is the best medicine for the preventative of disease known. It undoubtedly saved the lives of more than

6,000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season. It has never been known to injure in the least the most delicate child.

RHEUMATISM.

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief, this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen.

☞ Hear Mr. Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him:

Dr. Townsend—I have used one bottle of your Sarsaparilla, and I find it is excellent in its effects upon a chronic rheumatic pain to which I am subject, from an injury occasioned several years ago in a public stage. Please send me two bottles to the care of Dr. Seymour. I have conversed with two of our principal physicians and recommended your Sarsaparilla. SETH TERRY.

Hartford, March 19, 1845.

CONSUMPTION CURED.

Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be cured.

Dr. Townsend—Dear Sir: Nearly twenty years ago I took a violent cold, which settled on my lungs, and affected me severely, indeed, finally it became a constant hacking cough, but not so severe as to prevent me from attending to my business. Within the last few years it increased on me gradually. At last I became reduced—I breathed with difficulty, and raised with my cough much bad matter, and for the last nine months previous to using your Sarsaparilla, had regular night sweats; indeed, my friends and myself supposed that I would die with the Consumption; but I have the happiness to inform you that, to my surprise, after using three bottles of your Sarsaparilla, I find my health restored. It relieved me gradually, and I am now enjoying much better health than I have before in 26 years. I had almost entirely lost my appetite, which is also returned. You are at liberty to publish this with my name in the papers, if you choose.

My little girl, who is three years old, had a very bad cough the whole of last Winter. We became very much alarmed on her account. While using the medicine I gave her some of it, and it soon entirely relieved her, as well as myself, and she is well now, and hearty, as any child I ever saw. She was also full of little blotches; it took them away, and her skin is smooth and fair now; and I am satisfied she recovered her health from using your excellent medicine.

E. W. CONANT, 444 Bowery.

GIRLS, READ THIS.

You who have pale complexions, dull eyes, blotches on the face, rough skin, and are "out of spirits," use a bottle or two of Dr. Townsend's Sarsaparilla. It will cleanse your blood, remove the freckles and blotches, and give you animation, sparkling eyes, fine spirits, and beautiful complexion—all of which are of immense value to unmarried ladies.

GREAT FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness, Leucorrhoea, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame. Persons subject to weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of barrenness.

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us. Several cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine, healthy offspring.

Dr. Townsend: My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of bearing down, falling of the womb and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described, I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me. In a short period it removed her complaints and restored her to health. Being grateful for the benefits she received, I take pleasure in thus acknowledging it, and recommending it to the public. M. D. MOORE.

Albany, Aug. 17, 1847. Cor. Grand and Lydius sts.

TO MOTHERS AND MARRIED LADIES.

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all of the delicate diseases to which women are subject. It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating the system as to produce subsequent relaxation—which is the case of most medicine taken for female weakness and disease.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN.

Dr. Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.— They were afflicted very severely with bad sores; have taken only four bottles; it took them away, for which I feel myself under deep obligation. Yours respectfully,

ISAAC W. CRAIN, 106 Wooster-st.

New York, March 1, 1847.
